

Don't Be Afraid Of The Dark

This exclusive seminar will cover the TWO topics of Night Flying and Risk Management, including an open Q&A session with the speaker (see Additional Information for speaker information). In Part I will cover all aspects of night flying. Do you fly at night? Night flying is markedly different from daytime flying and requires extra skill sets not used during day VFR. After a short break, CFI Claus Weisemann will give Part II of lecture addressing Risk Management. All aviation enthusiasts are welcome. Please email mike.unruh@ventura.aero if you have any questions. Don't miss this event. Click on the link below and register TODAY.

Directions: Please see the "Additional Seminar Information" section for driving directions and speaker information.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
